

Project **ARTWEI**  
ACADEMY : "NatureEnvironmentTechnology"

Polish – German Workshop  
**SZCZECIN LAGOON CONNECTIONS:  
NATURE, SUSTAINABILITY, LEISURE**

*(preliminary concept)*

*The general aim of proposed workshop is to give the overview and to show actually existing possibilities of connections between nature values, renewable energy sources and tourism as – in general – a very special "offer" of Szczecin Lagoon region, on the both sites of it.*

*The target group should be first of all Project ARTWEI stakeholders as German as Polish, but it should be open also for participants from local (communities) administration responsibility for local development, specialists working in sustainable tourism "industry", scientists interested in concepts of sustainable development, students. Such a large group of potential participants gives also a possibilities to discussion or "brain storming", which can stimulate expected results.*

Time of planned workshop: September 2011.

Places: Odra Delta Nature Park (Czarnocin), "Ostoja" (Szczecin), ZERUM (Ueckermunde)

Proposed number of participants: about 25

Preliminary plan of workshop:  
SZCZECIN LAGOON CONNECTIONS: NATURE, SUSTAINABILITY, LEISURE

| Day  | Title of the day  | Proposed activities  | Leader   |
|--|---|--|--|
| Day 1  | "Nature values around Szczecin Lagoon"                                      | 1. Lectures about nature around lagoon: post-glacier landscape, climate, flora, fauna.         | Society for The Coast (EUCC - Poland)                              |
|  |   | 2. Lecture about nature protection: forms and activities, including NATURA 2000                |  |
|  |   | 3. Lecture about ecological tourism: so-far experiences  |  |
|  |   | 4. Sightseeing of Odra Delta Nature Park: concept of active nature protection and tourism      |  |
|  |   | 5. Discussion about nature as potential "local product" of Szczecin Lagoon                     |  |
| <i>Lodging: Odra Delta Nature Park, bungalows park</i> |   |  |  |
| Day 2  | "Renewable energy as an element of Szczecin Lagoon sustainable development" | 1. Presentation of potential renewable energy sources possible in using around Szczecin Lagoon | Training and Research Centre for Renewable Energy Sources "Ostoja" |
|  |   | 2. Biomass: where we are now?  |  |
|  |   | 3. Wind energy using and its influence for sustainability                                      |  |

|   |   |   |   |
|---|---|---|---|
|   |   | 4. Solar energy in Szczecin Lagoon practice   |   |
|   |   | 5. Discussion about possible renewable energy using and energy “action plan” for tourism.   |   |
| <i>Travel to Ueckermunde, lodging in ZERUM</i>  |   |   |   |
| Day 3   | Sustainable tourism around Szczecin Lagoon – possibilities to common way of development | 1. Identification of existing forms of sustainable tourism.<br>2. Visiting centres: the common way of integration culture, nature education and leisure around Lagoon.<br>3. The story of biking around Szczecin Lagoon.<br>4. Windsurfing, sailing, boat tourism around Lagoon.<br>5. Tourism and or vs. nature?<br>6. General discussion and workshop conclusion. | ZERUM Ueckermunde and Hochschule Neubrandenburg |
| <i>Travel back to participants destinations</i> |   |   |   |
