## ***Enlargement by Polish data***

- A) Graphs - types of fish - the average suspension content
- B) Tourism - tourism facilities (camping, swimming, golf)
  - areas for surfers
  - hiking trails
- C) Infrastructure
  - roads
  - buildings
  - ports at Lagoon coast
- D) Coastal protection - coast protection structures
- E) Administration - boundaries of Polish districts (counties, municipalities, regions)
- F) Relief (coast type) - low - high
- G) Protected areas
  - biological reserves
  - protected areas in the country (national parks, Landscape parks)
  - protected areas internationally (Natura 2000)
  - area of the proposed protection
  - habitats of birds
- H) Water
  - areas of obtaining excavated material from the bottom
  - sedimentation enriched of Zn/Pb/No/Po
  - type of sediments
  - class of water purity
